With an emphasis on the mental game of entrepreneurship, I help you navigate through storms, setbacks, and dire situations.

I work with enthusiastic founders or executives who are willing to step up their game, want to reach new goals, and hear unfiltered, unbiased perspectives.

I coach individuals who have a killer instinct and like to work with someone up close. Coaching sessions include:

- Efficiency

- Being Resilient
- Leadership
- Decision-making Process
- Mental Game
- Strategic Planning

Our sessions are unbiased, with sometimes harsh truths that can lead to pivots.

From onboarding to roadmap. We share a private workspace to prepare, communicate async, and document your improvements. Setting milestones and sprints to keep you accountable for your actions.

We set achievable goals to launch, improve, or stabilize your business. Whether you're a startup founder or a mature business, it's about us moving the needle together.

I will help you navigate through storms, setbacks, and dire situations. Building emergence **through a mindset shift.** (mental game)
